TiMi Trading Contest

Terms and Conditions

1. Organizer and eligibility

1.1. The TiMi Trading Contest (the "Contest") is organised by 8Tech PA LLC, the owner of the SimpleFX brand (the "Organizer"). Trading services, including the positions counted in the Contest, are provided to each Participant by the SimpleFX entity with which the Participant has concluded the Client Agreement. Prizes are credited to the Participant's account with that entity.

1.2. The Contest is open to individuals aged 18 or over who hold a SimpleFX trading account in good standing (each a "Participant").

1.3. The Contest is not open to:

- residents of the European Union, the European Economic Area, the United Kingdom or the United States, and US Persons within the meaning of Regulation S;
- residents of any country to which SimpleFX does not provide services under section I.3 of the Client Agreement;
- employees of SimpleFX group entities and members of their households.

1.4. Clients listed in 1.3 are not Participants, even if they open positions through TiMi during the Contest, and are not eligible for any prize.

1.5. Affiliates and influencers may take part on the same terms as other Participants. Affiliates do not receive Contest prizes for the results of clients they referred.

2. Contest period and participation

2.1. The Contest runs from **12 November 2026, 14:00 UTC** to **10 December 2026, 23:59 UTC** (the "Contest Period").

2.2. Participation is automatic and requires no sign-up. Any eligible client who opens positions through TiMi, the SimpleFX AI Trading Assistant, during the Contest Period takes part. All trading accounts of a Participant are counted together.

2.3. To appear in the ranking, a Participant must have at least 5 Qualifying Trades (section 3) that were both opened and closed during the Contest Period.

2.4. There are no restrictions on markets, trading hours or leverage beyond those that normally apply to the Participant's account.

3. Qualifying Trades

3.1. A trade counts in the Contest (a "Qualifying Trade") only if all of the following are met:

- it was opened through TiMi, after the start of the Contest Period, on any account of the Participant;
- it was opened on a LIVE (real-money) account of the Participant (DEMO accounts do not count);
- its margin is at least USD 10;
- it stayed open for at least 2 minutes.

3.2. A position opened through TiMi may be closed manually or through TiMi. A position opened manually does not count, even if closed through TiMi. Pending orders placed through TiMi do not count.

3.3. Partial closes and additions to a position are separate positions in the system and count as separate trades, provided each of them meets 3.1 on its own. An addition opened manually does not count.

3.4. Qualifying Trades still open at the end of the Contest Period are valued at the closing snapshot of **10 December 2026, 23:59 UTC**, as if closed at that moment. They count towards the score, but not towards the minimum of 5 trades in 2.3.

4. Score

4.1. Participants are ranked by SCORE, calculated from their Qualifying Trades:

$$\text{SCORE} = \frac{\sum (PnL_i \times w_i)}{\sum margin_i} \times \log_{10}\left(\frac{\sum margin_i}{N}\right) \times \max(1;\ \log_{10}(\min(N; 300)))$$

where i is a single Qualifying Trade, N is the number of Qualifying Trades, PnL is the trade's profit or loss and w is its weight (4.2). All amounts are in USD, converted at the platform rate: margin at opening, PnL at closing (or at the closing snapshot). The ranking shows SCORE × 100, rounded to one decimal place.

4.2. Profit is weighted by the source of funds used for the trade. A loss always has weight 1.0.

Source of funds	Weight on profit	Weight on loss
Funds deposited before 5 November 2026, 14:00 UTC	1.2	1.0
Funds deposited on or after 5 November 2026, 14:00 UTC	1.0	1.0
Credit bonus	0.7	1.0

For Participants with funds from mixed sources, the weight is the average of the above, proportional to each source's share. The shares are set once for each Participant, based on a snapshot of all their accounts at the start of the Contest Period (12 November 2026, 14:00 UTC), and apply to all their Qualifying Trades. Participants with no funds at that moment have a weight of 1.0.

4.3. Hedging. If, while a Qualifying Trade was open, the Participant held an opposite position on the same instrument, opened manually (not through TiMi) after the start of the Contest Period, on any of their own accounts, the profit on that Qualifying Trade does not count, regardless of the size of the opposite position. The margin of that trade still counts in full. A loss on such a trade counts in full. Opposite positions that are both opened through TiMi are not subject to this rule. Hedging does not lead to exclusion from the Contest.

4.4. Positions opened before 12 November 2026, 14:00 UTC are not taken into account when assessing hedging.

4.5. Where a Participant clearly hedges a Qualifying Trade with a manually opened opposite position on a strongly correlated instrument, the profit on that trade does not count. Losses count in full. Opposite positions opened by different Participants in a coordinated way lead to the exclusion of all Participants involved (7.2). Copying signals in the same direction is allowed.

4.6. If two Participants have the same SCORE, the higher total margin ranks first, then the Participant whose last counted trade was closed earlier. If they are still tied, the cash prizes for the tied places are added together and shared equally.

5. Leaderboard

5.1. The Organizer may start publishing the leaderboard a few days after the start of the Contest. Once published, it is updated every 24 hours **(excluding Saturdays and Sundays)** and shows the top 20 Participants by SCORE, identified by an anonymised identifier.

5.2. From 3 December 2026, 14:00 UTC until the end of the Contest Period, the public leaderboard is frozen and shows the standings at that moment, marked with the date and time.

5.3. The leaderboard is for information only. Final results are announced after verification (section 7).

SIMPLE FX

6. Prize pool and prizes

6.1. The cash prize pool depends on the total crypto closing volume (one-sided) of all qualified Participants, from all their accounts, on positions opened through TiMi or manually and closed during the Contest Period. The volume of excluded Participants does not count. The pool is set by the volume tier reached at the end of the Contest Period.

Crypto closing volume (USD)	Cash prize pool
below 25M	USD 3,750
25M to below 50M	USD 7,500
50M to below 100M	USD 15,000
100M to below 200M	USD 30,000
200M to below 300M	USD 60,000
300M to below 400M	USD 90,000
400M to below 500M	USD 120,000
500M and above	USD 150,000

6.2. Cash prizes for places 1–10, by volume tier (USD):

Place	<25M	25–50M	50–100 M	100–200 M	200–300 M	300–400M	400–500M	500M+
1	1,000	1,875	3,750	7,500	15,000	22,500	30,000	50,000
2	675	1,350	2,700	5,400	10,800	16,200	21,600	24,000
3	525	1,050	2,100	4,200	8,400	12,600	16,800	18,500
4	375	750	1,500	3,000	6,000	9,000	12,000	13,500
5	300	600	1,200	2,400	4,800	7,200	9,600	10,500
6	250	525	1,050	2,100	4,200	6,300	8,400	9,500
7	225	450	900	1,800	3,600	5,400	7,200	8,000
8	175	375	750	1,500	3,000	4,500	6,000	6,500
9	125	300	600	1,200	2,400	3,600	4,800	5,500

Place	<25M	25–50M	50–100 M	100–200 M	200–300 M	300–400M	400–500M	500M+
10	100	225	450	900	1,800	2,700	3,600	4,000

6.3. SFX Coin prizes, the same in every volume tier:

Place	SFX Coin
1	100,000
2	50,000
3	10,000
4	8,000
5	6,000
6	5,000
7	4,000
8	3,000
9	2,000
10	1,500
11–20	1,000
21–30	500
31–50	100
Other qualified Participants	10

6.4. Each place receives one prize package (cash, where applicable, plus SFX Coin). Packages do not add up. Only one cash package is awarded per person and per household: further Participants from the same household move to the first place without cash and receive the SFX Coin prize for that place.

6.5. Cash prizes are credited to the Participant's SimpleFX trading account as withdrawable funds. SFX Coin are credited after the end of the Contest, cannot be withdrawn and set the Participant's cashback level under the SFX Coin program terms in the Reward Center.

7. Verification and payout

7.1. Before prizes are paid, the Organizer verifies at least the top 20 Participants, and further places if needed. The Organizer may request documents or explanations, to be provided within 2 business days. A Participant who does not cooperate loses all prizes; the ranking is then re-sorted under 7.3.

7.2. If the Organizer detects any abuse of the Contest, including any breach of these Terms or the Client Agreement or any attempt to obtain a better ranking or a prize in an unfair way, the Participant concerned is excluded from the Contest, loses all prizes and their trading volume is removed from the prize pool calculation.

7.3. After all verification decisions, the ranking is re-sorted without Participants who do not meet the conditions for a given prize, and prizes are awarded according to the new order.

7.4. Prizes are paid only after the prize pool tier and the final ranking are confirmed. Full KYC verification is a condition of receiving any prize and must be completed within 2 business days of the announcement of the final results. A Participant who does not complete KYC within this time loses the prize; the ranking is then re-sorted under 7.3. The trading volume of such a Participant still counts towards the prize pool.

7.5. The Organizer reserves the right to make decisions regarding the Contest – including eligibility, qualification, scoring, verification and prizes – at its own discretion. The Organizer does not have to disclose its methods of detecting abuse. Its decisions on verification and prizes are final, to the extent permitted by applicable law.

7.6. Prizes are credited within 14 business days after the final ranking and the prize pool tier are confirmed and the Participant has passed full KYC verification.

8. Risk warning, TiMi and general provisions

8.1. Risk warning. CFDs are complex instruments and carry a high risk of losing money rapidly due to leverage. 78% of retail investor accounts lose money when trading CFDs with this provider. You should consider whether you understand how CFDs work and whether you can afford to take the high risk of losing your money. Participation in the Contest does not change these risks. Do not take more risk than you normally would in order to win a prize. Past Contest results do not guarantee future performance.

8.2. TiMi. Use of TiMi is governed by the AI Trading Assistant - Terms and Conditions of Use published on the SimpleFX website. TiMi does not provide investment advice or recommendations. Every trade opened through TiMi is prepared at the Participant's request and executed only after the Participant's confirmation. All trading decisions remain the Participant's own.

8.3. Taxes. Participants are solely responsible for any taxes due on prizes under the laws applicable to them.

8.4. Personal data. Contest data is processed under the SimpleFX Privacy Policy. The leaderboard does not show Participants' names.

8.5. Changes. The Organizer may change, suspend or cancel the Contest only in case of technical failure, force majeure, a change in law or suspected abuse. Any change is published on the SimpleFX website and does not affect results already achieved.

8.6. These Terms supplement the Client Agreement. In matters concerning the Contest, these Terms prevail. In all other matters, the Client Agreement applies, including its governing law and complaints procedure.
